I'm a Teacher turned Software Engineer, I still never lost the passion for teaching. In addition to my teaching background, I have a background in the FinTech industry, and am familiar with all aspects of Payment Processing, as well as a variety of Payment Gateways and e-commerce platforms. I bring strong problems solving skills and attention to details, as well as a passion for learning and mentoring that help me constantly grow as an engineer and as a person.

TECHNICAL PROJECTS

Alternate Side Bot - [GitHub](#) | [Blog Post](#) | [Twitter Account](#)

A Twitter bot that retweets whenever Alternate Side Parking rules are suspended in New York City. Users can also subscribe to get SMS notifications or call in to get the latest status.

- **Twitter bot** was built in **NodeJS**
- Added a **Ruby** app that uses the **Twilio API** to let users subscribe using an **SMS** message from their phone
- The **Ruby/Twilio** app also lets users call in to hear a voice recording of the latest status.

Compatibility-List - [GitHub](#) | [Blog Post](#) | [Demo](#) (Demo Username: **demo**, Password: **demouser**)

An app I created to help the integration department keep track of which gateways and shopping carts we integrate with (the demo is to an earlier version of the app that I built to help me keep track of job applications).

- Built using **ReactJS+Redux** to handle the client-side application
- Created a **Rails REST API** and **PostgreSQL database** for the **backend**
- Used **JWT Tokens** to **authenticate** users
- Used **RSpec** for **Test-Driven-Development** of the **Rails API**

FlyLog - [GitHub](#) | [Blog Post](#) | [Demo](#) (Demo Username: **demo@yechiel.me**, Password: **demouser**)

An online logbook to help pilots keep track of their flight-hours and certifications.

- Built using **Rails** with a **PostgreSQL database**
- Used **GitHub OAuth** to let users sign in with their **GitHub accounts**.

Corneal - [GitHub](#) | [Blog Post](#)

A Ruby gem that generates a structure for a basic **Sinatra** app, with **Model** and **Scaffold** generators.

- A collaborative open-source project.
- Used **Thor** to build generators for **Models**, **Views**, and **Controllers** similar to the **Rails generators**

TECHNICAL SKILLS

Professional experience including: HTML/CSS, PHP, Ruby, Go, C++, JavaScript, Python, Ract, Rails, Sinatra, RSpec, SQL

EMPLOYMENT HISTORY

Pivotal Software Inc. New York, NY

Software Engineer, November 2018 - Present
